PATENT APPLICATION

JAMES R. MARKHAM, ET AL.

Application No. 10/789,651

Filed: February 27, 2004

ANALYZER FOR MEASURING  
MULTIPLE GASES

Commissioner for Patents  
P.O. Box 1450  
Alexandria, Virginia 22313-1450

**SECOND STATUS INQUIRY**

The captioned application was filed on **February 7, 2004**, and no substantive action of any kind has been received to date. A first Status Inquiry, to which there has been no response, was submitted on July 27, 2005 and was received in the office on July 29<sup>th</sup>.

Particularly in view of the fact that the application has been published and has been **pending for more than 21 months**, action would seem long overdue. Advice as to when action can be expected would be sincerely appreciated.

Respectfully submitted,  
JAMES R. MARKHAM, ET AL.
